REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The claims are drawn to a method of clustering data first by a hierarchical clustering algorithm to determine the optimal number of clusters, and then clustering the data into the optimal number of clusters by a non-hierarchical clustering algorithm to result in optimal distribution of the data. The closest prior art is Fahy (U.S. Patent Application Publication No. US 2002/0052692 A1). Fahy shows a method of clustering data first by a non-hierarchical clustering algorithm and secondly by a hierarchical clustering algorithm to reduce the computation time for the hierarchical clustering algorithm. The prior art does not show an algorithm of first treating data using hierarchical clustering, determining the optimum number of clusters from the hierarchical clustering results, and secondly treating the data using non-hierarchical clustering into the optimum number of clusters.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Election/Restrictions

2. Applicant's election without traverse of Group 1 in the response filed 21 April 2004 is acknowledged.

3. This application is in condition for allowance except for the presence of claims 6-8, 14, 15, and 22-24 non-elected without traverse. Accordingly, claims 6-8, 14, 15, and 22-24 have been cancelled.

EXAMINER'S AMENDMENT

4. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claims 6-8, 14, 15, and 22-24 have been cancelled.

Conclusion

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to John S. Brusca whose telephone number is (571) 272-0714. The examiner can normally be reached on M-F 8:30-5:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Michael Woodward can be reached on (571) 272-0722. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
